

EVERDOOR™
Vinyl Garage Doors

The Ultimate Garage Door

The 1 3/8" Vinyl Garage Door

Elegantly designed, extremely durable, a gracious compliment to a fine home. The 1 3/8" Vinyl Garage Door is the door for homeowners who want the rust free, dent resistance of an EverDoor™ vinyl garage door. Comes with an intricately detailed woodgrain pattern, strikingly deep raised panel design and convenient hose-down maintenance. Quiet running nylon rollers complete the package for an excellent family garage door.

The EverDoor™ 1 3/8" Vinyl Garage Door is an evolutionary development conceived and produced using the principles and experience accumulated from over 20 innovative and successful years in the vinyl building products industry.

That's why it's warranted for life.

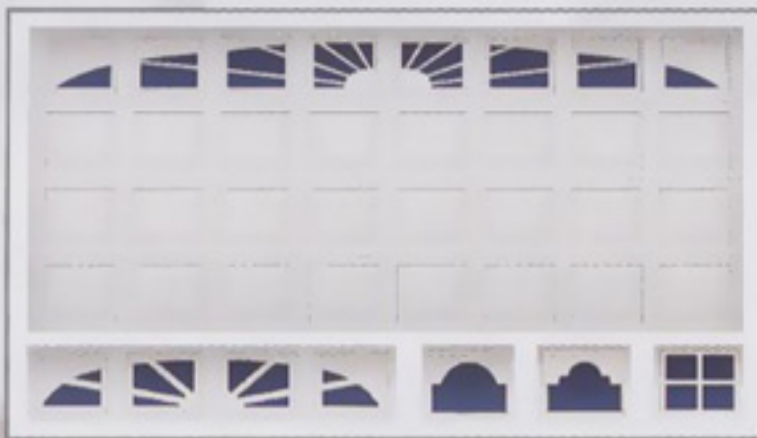

Corrosion free vinyl makes EverDoor™ the Coastal Regions First Choice.™

**Virtually
Kidproof™**

Alside®

The Ultimate Garage Door

EverDoor™ 1 3/8" Vinyl Garage Door

See our Catalog page for your selection of designer window inserts available with regular and privacy glass.

Corrosion free vinyl makes EverDoor™ the Coastal Regions First Choice.™

Cutaway of an EverDoor™ 1 3/8" panel.

Colors:

1. Glacier White*
2. Cape Cod Gray
3. Monterey Sand
4. Adobe Cream

* Extra bright Glacier White makes most other white garage doors look dingy gray.

EVERDOOR™ Vinyl Garage Doors

Virtually Kidproof™

So rugged, this door's Virtually Kidproof.™ Baseballs, basketballs, bicycles, all those things that strike fear into the heart of a fragile steel garage door owner, don't faze the proud owner of a rugged EverDoor™ 1 3/8" Vinyl Garage door. No denting, peeling, mildewing or rusting with Everdoor.™ The color will not scratch away as on steel doors, because the thick, ultra resilient vinyl skin has color all the way through.

RealMitre™
Woodgrain

Beautifully detailed RealMitre™ Woodgrain. Drop dead gorgeous. Ever notice the random overall stamped pattern found on steel doors? Compare how RealMitre™ changes direction, as does real wood, where the stile meets the rail, even on the trim.

Vinylfuseon™
Bonding System

Exclusive Vinylfuseon™ Bonding System.

Patented construction process developed with BASF fuses the polyurethane core to the rigid steel infrastructure, the rugged front vinyl skin and the finished vinyl back forming a solid, integral panel of beauty.

InfraStrut™
Reinforcement System

20 gauge steel Infra-Strut™ Technology.

Dual interior galvanized steel C-channel technology eliminates the need for exterior struts on most EverDoor™ 1 3/8" Vinyl Garage doors. The reinforcement is built right into the rigid panels.

R-Insylate™
Structural Foam

Structural polyurethane foam R-Insylate.™

R-10 insulation factor. Compare to most steel doors which use fragile polystyrene that has a factor which is generally in the neighborhood of R-5 to R-8.

Lifetime Limited Warranty

Lifetime Limited Warranty.

Better than the standard steel door warranty because EverDoor™ 1 3/8" Vinyl Garage Doors are warranted for life AND won't dent, mildew, peel or rust under normal use.
